The latest addition to the number came in yesterday in the person of Special Agent Barr, of Phoenix, representing the Conservative Life.

Too Many Callers—Owing to the exceeding popularity of the E. P. & S. W. office force, steps have had to be taken there to shut out callers. Hereafter the rule will be to do all the business and all exchanges of pleasantries through the windows of the office.

The members of the troupe have an enviable reputation in their hazardous profession, and they promise something entirely new in their line. The fighters will put the quietus on four bulls, all fierce brutes from the Mexican ranges.

Senor Casanave Beltran, the manager of the troupe, has had extensive experience in his line, and the performers now under his direction are the pick of the lady bull fighters of Europe.

McFee Adjustable Yoke Petticoats?

The first time the skirt is put on it is adjusted to the proper waist measure by means of the hooks and eyelets, after which they need not be touched, the skirt having a buttoned placket hole. The fitted top does away with all wrinkles and fullness around the waist and over the hips and permits the dress skirt to fit smoothly, giving the figure a natural grace and appearance impossible with an ill-fitting petticoat.
